

Sailboats

Come join in the fun of ocean sailing organized especially for your guests. Groups will board a combination of **private small 37-42' passenger sailboats** for an energetic sailing experience in the nearby waters of trendy and sophisticated Long Beach. Licensed skippers spend the first few minutes discussing boat safety and rules of the ocean, then venture into the sea and participate in a sailing regatta where boats will go one on one against each other in a fun teambuilding race.

Spectator Boat

For those who are not as competitive, a spectator vessel will be available for a cruise among the sail boats. For a more leisure sail, guests will be aboard a unique vessel: this **105 foot private yacht** has a versatile interior and was custom built to allow for an impressive setting. Guests will enjoy a sail in style as they cruise the harbor in this upscale private yacht.

Tall Ships

Since two boats can ever not be racing when side by side, the twin Brigantine Tall Ships will depart their home in San Pedro or be remoted to Long Beach and meet up with the other sailors, and enjoy in their own regatta of dueling tall ships. The 90' twin brigantines named after Irving Johnson and Exy Johnson, they are the flagships of the Los Angeles Maritime Institute's TopSail Youth Program, a non-profit organization created as a character building organization to help at risk youth prepare life through the discipline and teamwork required to safely handle a tall ship.
